Crime Prevention Through Environmental Design

CPTED

PALM DESERT POLICE IS COMMITTED TO KEEPING OUR RESIDENTS SAFE.

Crime Prevention Through Environmental Design (CPTED) is used for residents to familiarize themselves with the guidelines of environmental crime prevention. These CPTED guidelines are applied to reduce the fear and incidence of crime and improve the quality of life. The Palm Desert Police will conduct a CPTED inspection for residential communities in effort to work together with the community to reduce opportunities for crime to occur. The inspection will consist of the review of locks, lighting, shrubbery and landscaping, windows, screens and patio doors, peep holes in doors and alarm systems.

If your interested in having a CPTED completed at your residence, please fill out the form below and return it to me.
